Mr. Joshua Lederberg
University of Wisconsin
Madison 6, Wisconsin

Dear Mr. Lederberg:

I would like to thank you for your very helpful reply to my letter of April 30. I realize you are very probably a very busy man and for this reason I am all the more thankful for your prompt answer.

This Saturday, May 16, Brookhaven National Laboratory is having its' annual open house. I am hoping to be able to be able to pick up some use ful information concerning radiobiology at that time. My instructure, Mr. William Sawyers, is also trying to arrange a visit Cold Spring Harbor. I hope to be able to make good use of the other information you sent, shortly.

If I encounter any specific problems in my work I will surely accept your gracious offer of help. I would also like to mention that I saw your name originally in the AEC publication of January, 1953.

Yours very truly,

John O'Brien
